DANE COUNTY SHERIFF'S OFFICE

Supplement Report

DEATH INVESTIGATION (FR. KUNZ)

Complainant:

The complainant is an

Alfred J. Kunz
male white

DOB: 4/15/30

109 S. Military Road

Dane, WI.

subject is the St. Michael's Catholic Church parish priest

Assignment:

On March 4, 1998, I was in full uniform and on duty as a Dane County deputy sheriff. I was assigned to the sheriffs office West Precinct patrol area One William Five.

Dispatch and Arrival to Scene:

On March 4, 1998, I was dispatched to 111 S. Military Road in the Village of Dane reference a subject who was found lying in a pool of blood. I was also advised that Wauankee EMS would be dispatched to the scene. While still en route, I was further advised by the 911 Center that the subject reporting the incident now advised that the person down was now stiff.

Lt. Ludwig had been monitoring the call and came on air to have the 911 Center advise Wauankee EMS not to enter any possible crime scene. I arrived on the scene at 0714 hours and was less than one minute behind Wauankee EMS which had preceded me.

Reporting Person:

I pulled into the parking lot circle drive in front of St. Michael's Catholic Church and did note that Wauankee EMS was parked on top of the circle. As I exited from my squad, I did note that two EMT's were escorting an individual from the west end of the school towards the EMS. I did note that the EMT's appeared to be supporting the individual. I walked closer and did note that the subject being escorted had blood all over his hands and it appeared to be very fresh. The subject also appeared to be very distraught.

I did later have the subject verbally identify himself to me as

Brian Joseph Jackson

Mr. Jackson was identified on the first page of this report.

Case No. —
98011295

Noting the blood on the subject, I did ask him if he was injured and he replied no. He stated the blood was from the individual who was inside the building. Mr. Jackson appeared to be uncertain as to whether the subject inside was deceased but he did tell me that the subject was stiff and cold. He also advised that he had touched the individual inside per instructions from the 911 Center who had told him to attempt to find a pulse.

I did have the Waunakee EMT's place the subject in their vehicle and advised them not to clean the individual or remove any items from his person. The subject also advised me that they had not been in side the building having gone no further than the exit.

EMT's Identified:

I did later identify the three EMT's from the Waunakee unit.

Subject Number One is a Vaughn D. Frye, male white, DOB: [REDACTED] Waunakee, Wi. 53597, home phone [REDACTED]. Subject employed at Oscar Mayer from 9:30 p.m. to 6:00 a.m. Subject did not know a work phone number.

Subject Number two is a Shirley A. Nelson, female white, DOB: [REDACTED] Waunakee, Wi. home phone: [REDACTED], subject employed at Waunakee Utilities from 7 a.m. to 4:00 p.m. business phone: 849-8111.

Subject Number three is a Robert L. Bernards, male white, DOB: [REDACTED] Waunakee, Wi. phone: [REDACTED]. Subject retired, can be reached at home.

Complainant Status Determined:

I did approach the west end of St. Michael's School with the intention of checking the complainant to make certain there was no need for medical intervention. I did pull on the west door to the school and initially noted that it appeared to be locked however I did pull somewhat harder and the door did come open. I was extremely cognizant of any possible evidence either on the sidewalk or on the doors as I entered the building and throughout my time inside. I did note as I entered the school that there was blood on the outer door, and that there was a second door a few feet inside. The inside of this door also had some blood smears. As I stepped into the school, there was a small room to the right and I observed a phone laying on the floor of the school in an area near the doorway. The alert tone such as a person hears when the phone is off the hook was sounding at this time.

As I looked into a hallway, I did observe a body lying on the floor. The subject was on his back and his arms were extended at angles towards the ceiling. There also appeared to be a significant quantity of blood on the floor around the body. I again approached the complainant being careful not to step on any obvious evidence and approached to within a couple of feet from the complainant. I did note that the complainant had a very pallid color and that rigormortis had set in. I also observed what appeared to be some type of gash or wound to the throat area of the complainant. I made a very quick survey and determined that the individual appeared to be an older white male and was dressed in either black or navy blue slacks and some dress or casual type shoes were laying near the body. There also appeared to be a large ring of keys in or near one of the subjects hands. I also observed a raw-hide type necklace around the neck as well as some type of metal chain. It was very apparent that the complainant was not in need of any medical attention and there being no other need to be in the building, I retraced my steps and left the school.
